PERSONAL SUMMARY

I am a Junior Software Engineer transitioning into the tech industry after completing a software development bootcamp. With 7 years of professional working experience across customer service, procurement, sales & marketing, and website development in both remote and on-site environments, I am eager to apply my technical skills and passion within a dynamic development team. My commitment to continuous learning and growth ensures that I can quickly adapt and contribute value to any organisation.

SKILLS

Technical Skills:
- HTML, CSS, BootStrap, JavaScript, Python, Django, SQL, PostgreSQL, Git.

Software Skills:
- GitHub, Microsoft Office Suites, Canva, DaVinci Resolve.

Development Methodologies:
- Agile, Scrum.

EDUCATION

Code Institute   **Bristol, United Kingdom (Full Time, Remote)**
Full-Stack Software Development Skills Bootcamp   *March 2024 – July 2024*

- **Concentration:** Front-End Website Development and Back-End Database Management.
- **Related Coursework:** Coding in HTML, CSS, JavaScript and Python. Utilising API's and frameworks such as BootStrap and Django. Managing Databases with SQL and PostgreSQL. Learning how to work in Agile and Scrum methodologies.

St Brendan's Sixth Form College   **Bristol, United Kingdom (Full Time, On-Site)**
A-Level Studies   *September 2018 – March 2020*

- **Concentration:** Three A-Level qualifications in Business, Sociology and Geography.
- **Related Coursework:** Mathematics, Statistics, Data Analysis & Interpretation, Project Management, GIS Systems, Research Methods, Human-Computer Interaction.

RELEVANT PROFESSIONAL EXPERIENCE

Wholesome Hub   **Bristol, United Kingdom (Freelance, Remote)**
Front End Web Developer   *July 2024 – August 2024 & January 2025 - Ongoing*

- Utilised HTML, CSS and BootStrap to create a Front-End Website for a coffee company to increase brand awareness.
- Facilitated regular meetings with the business owners to ensure satisfaction with the website development progress, which resulted in 100% satisfaction rate and increased customer relationships.

Springfield Supplies & Projects   **Thornbury, United Kingdom (Full Time, On-Site)**
Sales & Digital Marketing Assistant   *August 2023 – November 2023*

- Assisted in the development and execution of marketing campaigns to drive brand awareness and increase sales.
- Managed customer relationships by responding to inquiries and providing product information, increasing customer satisfaction by 18% measured through feedback surveys.
- Updated and maintained CRM databases, tracking over 200 sales leads and improving follow-up times by 20%, resulting in better client retention.

Midas Construction   **Bristol, United Kingdom (Full-Time, Hybrid)**
Procurement Administrator   *September 2020 – November 2021*

- Managed Procurement processes for 20+ suppliers, optimising purchasing cycles, which led to a reduction in procurement costs during COVID over six months.
- Conducted data analysis on supplier performance, leading to the selection of more reliable vendors and reducing supply chain disruptions by ~10%.
- Assisted in the automation of purchase order systems, reducing manual entry errors and improving processing efficiency.

PERSONAL PROJECTS

Calorie Tracker App
Individual   *June 2024 -July 2024*

- I developed a fully functional calorie tracker app, to assist users in tracking their daily calorie intake and weight records.
- Tech Stack: HTML, CSS, BootStrap, JavaScript, Python, Django, PostgreSQL.
- GitHub Repository: github.com/JamieBennett-Dev/Calorie-Tracker
